DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-43, 45-56, 65-107, 109-120, 129-154, 156-167, drawn to method and apparatus for operating wireless device, classified in class 702, subclass 150.
- II. Claims 44, 57-64, 108, 121-128, 155, and 168, drawn to business method for conducting business with wireless device, classified in class 705, subclass 1.

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as operating wireless for amateur radio devices. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
